

ARIAN HOLDING

CORPORATE PROFILE · 2026

A Century of Engineering. *A Future of Global Industries.*

Arian Holding — a diversified industrial and investment group spanning engineering, minerals, industrial products, real estate and a healthcare-digital ecosystem since 1920.

A diversified industrial & investment group

Arian Holding is a privately-owned, capital-led trading and investment enterprise with deep roots in metal manufacturing and engineering. From our origins in early 20th-century oil-barrel manufacturing to today's network of specialist companies, we design, build, operate and invest in businesses that move materials, power and people across borders.

We unite industrial capability with digital innovation and strategic investment — maintaining financial discipline, strong governance and a long-term growth mindset across diverse but connected sectors.

From oil barrels to smart industries

Arian Holding traces its roots to 1920, when our ancestors began crafting oil barrels for the early Iranian oil industry. That family workshop — built on metalworking skill, discipline and precision — evolved into machinery, materials sourcing, construction partnerships and international trade.

Through strategic investments and the creation of specialized companies, Arian Holding grew from a regional manufacturer into a globally connected, multi-sector group operating through entities across the Middle East, Europe and Asia.

"The same spirit that forged steel barrels a century ago now powers our global industrial ambitions."

- **1920** — Metalworking & oil-barrel manufacturing begins
- **1940–1960** — Expansion into light industry & supply trades
- **1980–2000** — Entry into engineering, materials, logistics & trade
- **2000–2015** — Real-estate investment & international expansion
- **2015–Present** — Healthcare technology, ERP platforms & global operations

Why we exist, where we're going

Our Mission

To build a resilient, globally connected industrial and investment group by integrating engineering heritage with innovative business models — creating long-term value for partners, communities and stakeholders through responsible operations, sustainable resource use and continuous innovation.

Our Vision

To become a recognized global holding known for industrial excellence, mineral expertise, smart technologies and cross-border investment — expanding responsibly across key strategic markets while enabling the industries and ecosystems of the future.

The values that guide us

Integrity & Responsibility

Ethical governance and responsible business practice.

Engineering Precision

High standards in every project, process and partnership.

Innovation

Digital transformation and forward-thinking investment.

Sustainability

Environmentally and socially responsible operations.

Long-Term Partnership

We invest with a multi-decade perspective.

Global Mindset

Multicultural operations and compliance-first expansion.

Five connected strategic clusters

Industrial Engineering & EPCF

Engineering, procurement, construction & financing for industrial, energy and infrastructure projects.

Mining, Minerals & Stone

Exploration, processing and global distribution of minerals, raw materials and natural stone.

Industrial Products & Commodities

Steel, semi-finished products, non-ferrous metals, petrochemicals and polymers at scale.

Real Estate & Hospitality

Strategic real-estate and hospitality assets supporting industrial and tourism growth.

Healthcare, Digital & Relocation

Healthcare platforms, ERP systems, AI applications and investment & relocation advisory.

Integrated as One Group

Shared capital, governance and a century-long reputation across every cluster.

Strategic materials & commodities

Six product groups connecting reliable producers with industrial end-users — focused on quality, certified standards and predictable delivery worldwide.

Steel Products

Rebar, beams, channels, angles, coils, sheets, wire rods & profiles.

Semi-Finished Steel

Billets, slabs and blooms for re-rolling and manufacturing.

Non-Ferrous Metals

Aluminium, copper, brass, zinc, lead — ingots, cathodes & alloys.

Industrial Minerals

Barite, bentonite, gypsum, aggregates, silica, clinker & pozzolan.

Petrochemicals & Chemicals

Urea, sulphur, bitumen, base oils, methanol & industrial chemicals.

Plastics & Polymers

HDPE, LDPE, LLDPE, PP, PVC, PET, granules & packaging films.

Delivery & compliance: FOB / CFR / CIF / EXW / FCA terms · Mill Test Certificates · COA / MSDS / COO · optional SGS / BV / TÜV inspection · multilingual support (EN / AR / TR / CN).

An ecosystem of specialist brands

20+ operational companies, technology ventures, advisory firms and logistics entities — each contributing to the group's collective strength.

StoneMiners — Natural stone sourcing & export

Fonix ERP — Enterprise ERP platform

Merkarian — Freight forwarding & logistics

Int'l Trade Pioneers — Trade & investment, Oman

London Business Advisers — Consultancy, UK

DH Adviser — Relocation consultancy, Dubai

ArianMedTour — Medical tourism

Medicalling — Telehealth services

MedialDE AI — AI clinical assistant

Monshino — Medical clinic & hospital ERP

Cyberneting — App, web & digital marketing

Kedmati — AI on-demand service app

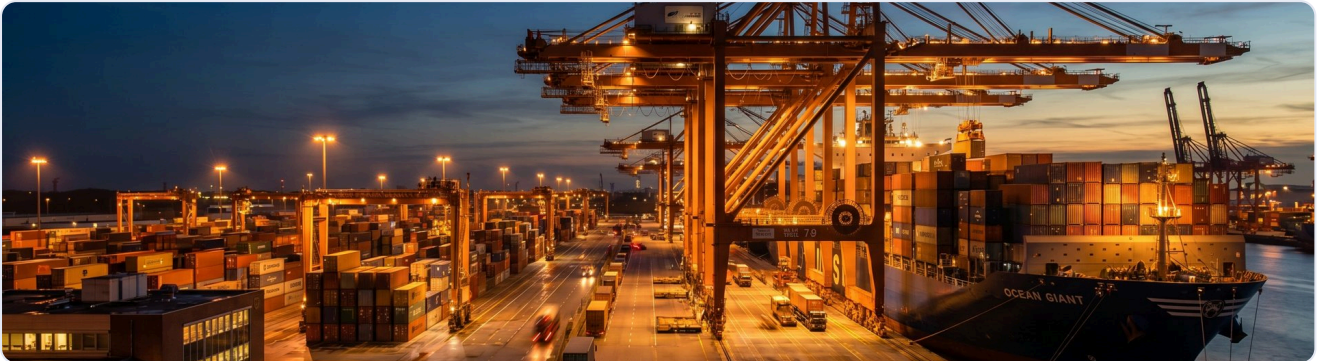

Clean-Tech — Disinfection & hygiene technology

Rahyaran — Relocation & investment pathways

ArianJob — Recruitment & HR

ArianTour — Travel & experience management

The operating backbone

Global Sourcing & Procurement

Certified suppliers across the Middle East, Asia, Africa, Europe & UK.

Quality Assurance & Compliance

Multi-level testing, SGS/BV/TÜV inspection, full documentation.

Certifications & Standards

ISO 9001/14001/45001/27001, ASTM, EN, BS, GCC conformity.

Supply Chain & Logistics

End-to-end freight via MerkJarian across GCC, Europe, Africa, Asia.

R&D, Engineering & Innovation

Engineering, AI, predictive analytics & digital-twin simulation.

Sustainability & ESG

Responsible sourcing, emissions reduction & ethical governance.

A message from our leadership

We only build what we are prepared to stand behind for decades. Arian Holding exists to connect industrial heritage with the industries of the future — to build with care, to operate with discipline, and to create real, lasting value.

Dr. Iman Azarbajejani

Chief Executive Officer, Arian Holding

Global presence

United Arab Emirates

Regional operations, investment & digital ecosystem hub.

Oman

Trade, logistics & industrial partnerships.

United Kingdom

Advisory, corporate services & international expansion.

Reach

Operating across the Middle East, Europe and Asia.

Let's build the next chapter of industry, together.

Whether you are an industrial operator, an investor, a healthcare institution or a technology innovator — Arian Holding offers strategic partnership opportunities across borders and sectors.
